

The Friends work with other park groups to involve local people in the life of the park.

We organise events to bring communities together and have carried out consultations with local people to identify what they want from the park.

Events have included; The May Fair, Beating the Bounds Consultation, plant surveys with the South London Botanical Institute, bulb planting and clear up days.

White clover ~ *Trifolium repens*

False oat grass ~ *Arrhenatherum elatius*

The Friends of Burgess Park are an association of people and other interested groups whose concern is to protect, promote and enhance this important, inner-city London park.

Protect

We want the park protected from inappropriate development, inappropriate use and with high regard for protecting the environment and ecology.

We monitor the park boundaries and lobby against development which would reduce the area of the park.

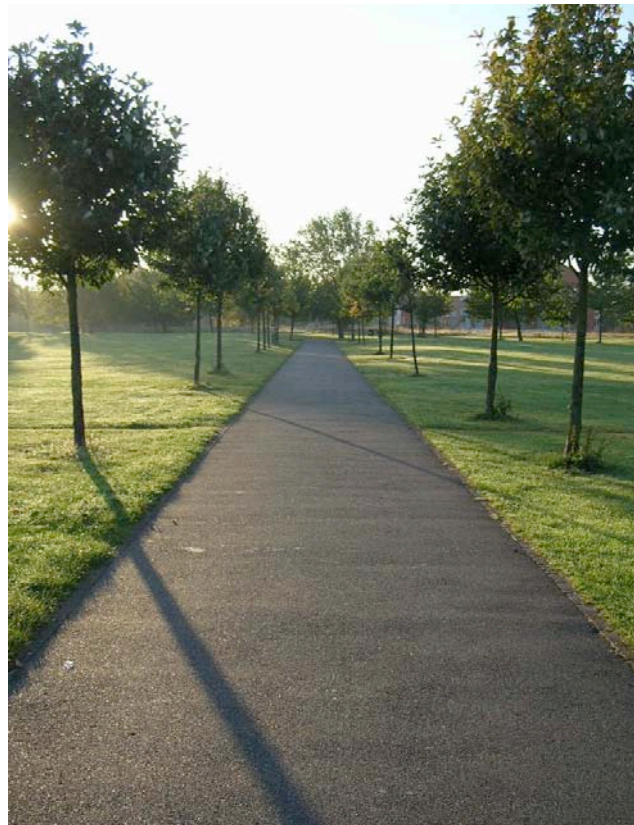

As regular users of the park we observe park management and maintenance, and campaign for best practice.

Promote

We aim to encourage appropriate use of and events in the park, to facilitate other park user organisations and to encourage new visitors.

Enhance

We identify areas of improvement for the park and work to improve this enormous asset for all the community.

Meetings

The committee meet on the first Tuesday of every month.

Public meetings are held regularly and are announced on our website and in park notice boards.

Meetings take place at the Burgess Park Community Sports Centre, Cobourg Road, from 7 – 9pm.

Membership

We are a constituted group that aims to represent the local community.

Membership is free and we welcome every one who cares about the park.

For more information about becoming a Friend, please go to our website.
